

Go to the Dashboard of your blog.

Hover over “Settings,” and a menu will appear, and you will then need to click on “Reading.”

Go to the “Site Visibility” portion of the page.

If any of the following are selected, unselect them:

Visible only to registered users of this network.

Visible only to administrators of this site

Visible only to registered users of this site.

Note: You have the option of allowing or discouraging search engines to index your site, as this will not impede my ability to syndicate/aggregate your blog.

Finally, scroll down to the bottom of the page and click the “Save Changes” button.
